Summary

Software developer determined to apply his problem-solving skills, strong work ethic, positive/team player mindset, and eagerness to learn to building projects and creating solutions that improve people's lives.

Skills

HTML, CSS, JavaScript (Angular, Node.js), SQL, REST, JSON, Git, GitHub

Education

- 10/19 - 3/2020 *Grand Circus* | Front-End After Hours Coding Bootcamp
- 9/2014 - 12/2016 *University of Michigan* | Bachelor of Science | Major: Movement Science
- 9/2015 - 12/2015 *University College Dublin* | Semester abroad in Dublin, Ireland
- 9/2011 - 4/2013 *Grand Valley State University* | Coursework towards degree. Transferred to U of M.

Work Experience

- 12/2018 - Present | *Cooperage Transport Operator* - Founders Brewing Company
- As a result of being exceptionally hard working, efficient, reliable, and always having a positive attitude, I am the only CTO to have been offered a raise since the position creation in 2015.
- 10/2018 - 11/2018 | *Cellar Operator Intern* - Founders Brewing Company
- Performed dry hop additions, transfers, CIP's & SIP's according to Founders SOP's. Quickly familiarized myself with new software programs for tracking fermentation data.
- 3/2018 - 3/2019 | *Server/Barback* - Harmony Hall
- Worked with a team of fellow servers to provide exceptional customer service.
- 6/2017 - 3/2018 | *Swing Driver* - Snack Time Services
- Adapted to varying daily responsibilities including completing delivery routes, rotating and documenting inventory in the warehouse, and providing excellent customer service.
- 4/2016 - 5/2017 | *Server* - Arbor Brewing Company
- Provided quality service in a fast paced environment by working effectively with coworkers.
- 12/2013 - 8/2015 | *Exercise Specialist* - Probility Physical Therapy
- Developed creative solutions to patient specific problems. Instructed patients on exercises. Created home exercise programs. Administered traction, electrical stimulation, and ultrasounds.
